Dental Insurance-
Dental Insurance is a valuable method of offsetting the costs associated with dental care. Unfortunately, dental plans are based on a contract drawn up between your employer and your insurance company and do not take into account your individual dental needs.
The privacy Act prevents us from accessing some insurance information.
There are thousands of dental plans available. Our staff members do not necessarily have access to the particulars of your insurance plan. Although we do our best to provide you with estimates based on our past experiences we can never guarantee what your final cost will be. We will send in a preauthorization to your plan for any major treatment but it is your responsibility to inquire with us the cost before treatment.

Name: _____

I, the above named patient, do fully understand and agree upon the terms addressed above regarding my dental insurance.
